Thompson & Pape, of Cla-cinnail, is a large and responsible medthe resources of Louisiana, the public tives in congress from the southern men of Washington will also be satiscine concern, theroughly worthy of fled," sald B. F. Yoakum, chairman of object in view they can accomplish the St. Louis and San Francisco Rall- much; in fact they can get what they road company. Mr. Yoakum was speak- want if they will go after it. ing of the necessity of building up the south in an address before the New Hon acres that can be made into rich Orleans board of trade.

Mr. Yoakum said: "For almost a century our government has looked with indifference at the rich unused lands of the southern states, while the British government furnishes its money and credit to ald Egypt to reclaim waste lands in the valley of the Nile 5000 miles away.

To Reclaim Lowlands. "The low rich lands of the south which have hitherto been regarded as a matter of interest only to the southern states, have now become a matter of importance to the whole country. First, the people need the food, cotton and other products which your lowlands will produce in abundance. Second, these lands are needed for settlement by the American citizens who are now seeking homes in other countries. Sixty thousand people moved from the United States to Canada last year. They carried with them \$1000 each, or \$60,-000,000. Our people are leaving thickly settled districts where the price of farm lands are high. This means that our own people are building up an empire belonging to a foreign nation at the expense of our own country.

Necessity for More Land. "The necessity of more lands under cultivation to produce more food and clothing need only be stated to give the second strong reason why the government must take an interests in the southern states. Your rich lands may be drained at a cost of \$5 per acre, located near the congested centers, and
